The New York stock market yesterday scored a substantial increase in activity over recent records. The dealings were no less professional than heretofore, but a more fident tone was discernible despite a further advance in exchange rates to the figures at which it had been previously estimated that gold would be shipped without loss. To an extent engagements of the precious metal in payment of our debts abroad, have been delayed owing to a reduction yesterday by the Bank of England and in open London market of a penny per ounce in the price of bar gold. This reduction also postpones the expected advance by the sury Department at Washington in the m on gold bars. In treasury circles and among bankers it is considered practically certain that a second 20 per cent. callon the depository banks will be made this week. The opinion now prevails that exports of gold, if made at all this week will be deferred until Saturday's steamers. No gold were in the market yesterday and, the supply of commercial bills con-

tues exceedingly light, the demand for change is only moderate. The increase in siness in stocks is attributed to a change front on the part of leading speculative terests and rumors were current of rather avy covering of shorts in the grangers and other shares. The rally in the grangers was attended by reports indicating a freer movement of corn. The more satisfactory condition of the iron industry and the reported formation of a powerful combination for the maintenance of rates, as well as necuraging traffic returns for February with St. Paul showing a net increase of 144,108, had a strengthening influence. Toco was active. LOCAL GRAIN AND PRODUCE.

Better Weather Improves Trade, with Few Changes in Values. The first spring-like day of the year gave more life to trade yesterday. The morning trains brought in a number of buyers who report the country roads fast drying up and talk much more cheerfully as to the business outlook. Wholesale men report collections slow, but look for an early improvement when spring fairly sets in. In prices yesterday there were no important changes. Of course this weather and an improvemen in the country roads means an easier tone to prices of poultry, eggs and butter. Fruits of the season are becoming scarce, but few good apples or oranges being on the market, and prices are strong. In the vegetable line an easy tone to prices is still noticeable. Cabbage, on increasing receipts, is easier, but not quotably lower. The seed market showed more activity yesterday at unchanged prices. Hay is firm at quotations, shipments in here of baled hay being lighter. The provision market is active at the revised quotations of yesterday.

WHEAT TO COVER HIS SHORT LINE.

Sellers Were Plentiful and Prices Fell Off-All Markets Weak, Provisions Breaking Heavily.

000,000 bushels of short wheat to-day by Pardridge helped make prices erratic. The market closed easy near the lowest point for the day, with a net loss of 160%c. Corn lost 4c and oats 4c. There was quite a decided break in provisions. The wheat market was very strong early

and very weak slater. The decline occurred

in the face of the largest day's sales of red

winter wheat yet reported in one day. It opened unchanged at 64c and advanced to 64%c. The aggregate sales of red winter wheat was very close to 600,000 bushels, The biggest buying in the pit during the early advance was by brokers for Pardridge, who cleaned up that speculator's short line at from 64 to 64%c, Mr. Pardridge being authority for the statement. That being over and becoming known in the pit, selling became almost universal, with the result that May dropped to 631/4@631/4c, and closed at 631/4c, against 631/4@64c on Saturday, while July sold down to 631/4@631/4c and closed at 631/4@

Only a moderate speculative trade was witnessed in corn, with trade narrow at 14@%c. The market was influenced a great deal by the action of wheat, but the increasing visible and fine springlike weather tended to check any material advance. The market for oats was active and business quite heavy. The feeling was weak. The main cause for the heavy tone and decline in prices was free selling by parties who recently broke the market by selling short stuff. The May opened unchanged at 19%c, sold at 19%c, declined to 19%c and ended with that price.

Provisions were quiet with a heavy under-tone, but no great reduction in price until wheat turned downward. The latter fact gave short sellers the necessary encourage-ment, and on that threw more into the pit than the market could absorb without a considerable break, with the result that pork closed with a loss for the day of 27½c, lard 10c and ribs 15c. Hog receipts were 31,000, instead of only 25,000 as looked for.

Estimated receipts to-morrow—Wheat, 25 cars; corn, 420 cars; oats, 300 cars; hogs, 20,-

From a Broker's View Point.

(By S. C. Igoe & Co.'s Wire, 429 Lemcke Building.) CHICAGO, March 30,-The wheat market has been active to-day. The early advance was caused by reported large sales of winter grades for mining at 41/2c over May. There has been some doubt expressed as to the truth of this statement. Armour & Co. confirm it and say 200,000 bu have been sold at this defference. Russian shipments are heavy, about 4,000,000 bus. Of this Italy takes one-fourth. The near future is weather question and the cash demand. The decrease in the visible is light, only

Corn very dull, and a little higher at opening on higher wheat. No feature and receipts light.
Oats opened firm and advanced 1/3c in ympathy with stronger wheat, Little later offerings became very free from the ship-pers and elevator people. Local longs were also free sellers when the market commenced to break. Feeling is easy with property of large receipts and lower prices. Provisions opened rather weak on 6,000 more hogs than expected. The strength in wheat held prices steady for a time, but later the market weakened on selling by

THE COUNCIL PASSES THE SOUTH WEST-STREET ORDINANCE.

Gates Must Not Swing Out on the Sidewalks - Contracts Let by the Works Board.

The City Council, in special session last ight, passed the ordinance providing for he improvement of South West street, between Washington and South streets, with a brick pavement. The gate ordinance also became a law.

The West-street improvement ordinance was passed by the unanimous vote of the Council. Mr. Montgomery, of the committee on sewers, streets and alleys, said the committee had carefully considered all sides of the question, and thought it best that the mprovements should be made. Councilman Cooper explained his vote. He said he had been asked by several of his friends to vote against this ordinance, but he felt that he could not afford to comply with the request. He realized that if people in one section of the city were permitted to defeat improvements in their neighborhood others would expect the same right, and the city would never be improved.

The gate ordinance passed by a vote of 16 to 3. Councilmen Madden, O'Connor and Shaffer voted against it. The ordinance makes it a misdemeanor for property owners to allow gates to swing across the sidewalk. Those who framed the ordinance had in mind the comfort of the pedestrian. Sixty days' time is given property owners in which to conform to the provisions of the ordinance, and penalties cannot be imposed until the expiration of ten days after notice has been served. Violators of the new law may be arrested and fined in any sum not exceeding \$25.

A communication was received from the Mayor announcing that he had signed the ordinance establishing the grade of Kentucky avenue where it is crossed by the railroad tracks. The ordinance giving Browder & Love Bros. the right to lay a switch across Blake street to their cotton mills was

USELESS CAR TRACKS Incumber Many Streets - Attempt to

Have Them Removed. Since the Board of Works began thinking of making an attempt to get the unused street-car tracks taken up, it is said that the City company has been watching proceedings closely, with the idea of laying a track as soon as an opening could be made. This, however, would be impossible, for the injunction against the new company is still in force and will remain so until the litigation between the companies is settled.
There are tracks on several streets which S. A. FLETCHER & CO., SAFE DEPOSIT. following streets never have a car run over them: Maryland, from Illinois street to Capitol avenue; Pennsylvania, from Maryland to Georgia street; Georgia, from Pennsylvania to Meridian street, and Kentucky avenue, from Washington street to the Union tracks. The tracks on Alabama street south of Massachusetts avenue, on Market street, and on Delaware street are practically useless and cause much incon-venience to the patrons of the lines run-ning over them. The same might be said of the tracks on Maryland, Georgia, South Meridian, north of the Union tracks, and South Pennsylvania streets. Most of these tracks were laid to prevent the use of the streets by the City company, but now that the new company cannot use them on ac-count of the injunction the Board of Works will endeavor to have at least a part of

> Sidewalk Contracts Let. The Board of Works yesterday awarded two contracts for sidewalks. improvement resolutions yesterday by the Board of Works: For brick pavement in the first alley west of Capitol avenue, from Vermont to Michi-For cement sidewalks on the east side State avenue, from Washington street to English avenue, and on the west side, from the C., H. & D. tracks to Prospect street. Residents of Jefferson street, from State avenue to Dawson street, petitioned the Board of Works yesterday for brick sidewalks on the south side of that street, and other property owners want the first alley southeast of Massachusetts avenue, from Orange avenue to the first alley north, graded and graveled. Both petitions were referred to the city engineer.

Guarantees Must Be Fulfilled. The Board of Works yesterday sent letters to all the asphalt companies having guaranteed streets in the city instructing them to make repairs immediately. They will be required to have the work completed by the third Monday in April to the satisfaction of the city engineer. The city engineer was also instructed to closely watch the work and see that repairs are properly made. The en-gineer was also instructed to thoroughly in-spect all brick walks and see that contractors place them in repair within the time stated. He has been making an inspection of cement sidewalks, and the board has called on him for a report as to the disposition of the contractors on this class of work to make repairs.

Water Mains for North Indianapolis, The Board of Safety is preparing to build an engine house in North Indianapolis, and I

ago, but also notified the board that it wor be useless to build a house and provide men-unless water mains are laid. Yesterday afternoon the members of the Board of Works went to the suburb to look over the territory and see where mains were needed, and to determine where they can be laid so as to give the greatest protection with the least number of feet of pipe,

Contracts Let for Hose Wagons. The Board of Safety yesterday awarded the contract for building two hose wagons for the new engine houses to Schweikle Prange, at \$492. George W. Miller & Co. wanted \$560, Bernd Brothers bid \$660 and G. H. Shover bid \$641.25. The board also allowed the monthly bids for the various minor departments under its charge.

Benefit Assessment Approved. The report of the appraisers for assessing enefits and damages for opening Graceland avenue, reported \$287.50 benefits, with no damages. The report was approved by the Board of Works yesterday.

Compromise for \$4,000. The damage suit of Mary Henderson

gainst the C., H. & D. Railroad Company was settled in the Superior Court yesterday for \$4,000. The final adjustment of the case was the result of an agreement reached by both sides. Miss Henderson was injured in 1894, while driving across the C., H. & D. tracks at State street. Her norse became frightened at a switch engine and ran off, throwing her into the street The suit was first tried about two month ago, when the jury brought in a special verdict for \$7,000. On account of an error in the interrogatories answered by the jury, the defendant was granted a new trial and the case came up for a second hearing last week in Room 3. At the conclusion of the plaintiff's testimony yesterday morning the parties to the suit got together and egreed upon a basis of settlement
